

LEGISLATIVE INTERPRETATIONS

Topic: Air contaminants – Instruments calibration	Issued by: V.P., WorkSafe Services
Statute: Regulation 91-191	Date Issued: December 11, 1998
Section: 24(4)	Date Revised:

24(4) Where an employer or an employee has reason to believe that the level of concentration of an air contaminant may be approaching 50% of the threshold limit value, the employer shall ensure that the air is tested to determine the level of concentration of the air contaminant.

Question:

Is it necessary to calibrate instruments before testing?

Answer:

While the subsection does not make specific reference to calibration, it is necessary to calibrate instruments before testing.
