

EARS NEED PROTECTION TOO.

You won't likely forget your hardhat or work boots, but have you remembered to protect your ears? Worksite equipment is often louder than the safe range of 70 decibels and can damage your hearing over time.

At home, at work, at the gym, anywhere... you could unknowingly be harming your hearing on a daily basis. Learn more at [WorkSafeNB.ca](https://www.WorkSafeNB.ca)
